## PROFESSIONAL SUMMARY

Results-driven **Backend Developer** and **Web3 Community Strategist** specializing in PHP and Database Architecture. Proven expertise in building secure web systems (Task Schedulers, Smart Attendance Systems) and scaling decentralized communities. Adept at bridging technical logic with high-impact digital growth strategies.

## CORE TECHNICAL SKILLS

- **Languages & Frameworks:** PHP, Laravel, MySQL, JavaScript (ES6+), HTML5, CSS3.
- **Databases:** SQL Architecture, Data Integrity, Query Optimization, Database Design.
- **Web3 & Strategy:** Community Management, Content Strategy, Partnership Negotiation, Discord/Telegram Moderation, Project Promotion.
- **Tools:** Git/GitHub, VS Code, oraimo Hardware Ecosystem, Samsung Mobile Tech.

## PROFESSIONAL EXPERIENCE

**Crypto Dungeon** | *Web3 Community & Partnerships Contributor Nov 2024 – Present*

- Architect community engagement frameworks for Web3 enthusiasts and NFT collectors.
- Negotiated strategic partnerships with **Create With Me AI** for seamless NFT integrations.
- Execute high-velocity Twitter/X campaigns to drive project adoption and brand visibility.

**Independent Web3 Projects** | *Community Moderator & Content Creator Oct 2023 – Present*

- Manage interactive discussions and AMAs for gaming and DeFi communities.
- Develop high-quality technical content and educational Twitter threads on tokenomics.
- Monitor community trends to provide actionable strategic insights to project leads.

**Olak Tech** | *Backend Developer (SIWES) Apr 2025 – Oct 2025*

- Developed a **Web-based Task Scheduler** using PHP and MySQL.
- Engineered backend logic for client systems, ensuring 99.9% data integrity.
- Collaborated on database schema designs for small-to-medium scale enterprise applications.

## KEY PROJECTS

- **Smart Attendance System (QR Code):** Designed and implemented an automated attendance tracker for educational institutions utilizing unique QR technology.
- **Phishing Website Detection:** Investigated and applied Machine Learning techniques to identify and mitigate cyber threats for final academic study.
- **Receipt Pro:** Developed a specialized backend system focused on robust SQL architecture and secure financial data handling.

## EDUCATION

**Moshood Abiola Polytechnic (MAPOLY), Abeokuta** *National Diploma (ND) in Computer Science* | **Expected 2026**

**Federal Science and Technical College WAEC & Technical Certificate ---**

## RECOGNITION & ROLES

- **Cowrywise Campus Ambassador:** Selected to lead financial literacy and fintech adoption on campus.
- **Web3 Contributor of the Year:** Recognized for excellence in community-building and digital strategy.
- **Best Content Strategy Award:** Acknowledged for innovative multi-platform content creation.
